EDUCATION

University of Western Ontario

2022- 2027 (Expected Graduation)

B.S. in Computer Science

Relevant Coursework: Intro to Computer Science I & II, Calculus I, Abstract Data Structures & Algorithms, Web Development, Object-Oriented Programming

EXPERIENCE

Retail Associate | Canadian Tire

June 2024 - September 2024

- Operated point-of-sale systems and handled cash, credit, and debit transactions accurately.
- Collaborated with team members to maintain store cleanliness and organization.
- Managed inventory and restocked shelves to ensure product availability.

Residence Soph | University of Western Ontario

September 2022 - May 2023

- Mentored first-year students by providing academic and social support, fostering a welcoming and inclusive environment.
- Coordinated residence events, enhancing student engagement and community building during the year.

PROJECTS

Pomodoro Timer | React, JavaScript, HTML & CSS

March 2023

- Developed a productivity tool using **React** and **Javascript**, providing users with customizable settings and progress tracking to effectively manage tasks.
- Successfully deployed the application with a **responsive design**, ensuring a **user-friendly interface** accessible across devices
- Implemented features such as task management and **user-centered design** for an engaging, streamlined experience.

Personal Portfolio | JavaScript, HTML & CSS

September 2023

- Built a personal portfolio using **JavaScript** for dynamic functionality and **front-end development** to showcase projects and skills.
- Integrated **Maps API** on the contact page to display a live map of Vancouver, enhancing user experience and contextual relevance.
- Utilized **Formspree** for a fully functional contact form, facilitating easy and secure communication through the site's **interactive design**.

EXTRACURRICULARS

Western CyberSociety | University Of Western Ontario

September 2023 - Present

- Actively participating in a student-led organization focused on cybersecurity, **Artificial Intelligence** (AI), and cutting-edge technologies like **Web3**.
- Engaged in workshops, hackathons, and collaborative projects to develop **cybersecurity** and computer science technical skills.
- Collaborating with peers to explore and promote innovative solutions to modern security challenges.
